## JOB DESCRIPTION

**Position/Title:** Field Observer (Doyon Lands)

**Approximate Dates:**

March 1- 20, 2022 & May – September 2022

**Responsibilities:**

The Field Observer (FO) works with the survey, drilling and geophysical crews. The FO accompanies field crews to observe and document the field crews' activities while performing work on Doyon Lands.

**Reports to:** MDC Supervisor, or assigned

**Non-Supervisory:** Observes and records land use and activities.

**Essential Functions:**

- Accompany survey, heli-drill and recorder crews to observe and document the field crews' activities while performing work on the Lands.
- Have read and understood the Doyon Land Access Agreement (will be provided).
- Understand and document prohibited Activities and Uses (section 1.7, et al.)

**Qualifications:**

- Must be willing to submit to criminal background check (no felonies or domestic violence in past 5 years) and drug testing.
- All applicants must be healthy and strong, show a keen knowledge of the outdoors, wildlife and survival skills; have experience working in remote conditions for extended periods of time.
- All applicants must be always CLEAN and SOBER while in training and in the field and willing to work as a team member with minimal support.
- Applicants may be required to participate in the company training and HSE program in Fairbanks.
